The information provided in these materials is of a general nature, based on certain assumptions, and is intended as background material. The content of these materials may omit certain details and cannot be regarded as advice that would be applicable to all businesses. The background presented is not a substitute for a thorough loss control survey of your business operations. Readers seeking resolution of specific safety issues or business concerns regarding this topic should consult their professional safety consultant. We do not warrant that the implementation of any view or recommendation contained herein will result in the elimination of any unsafe conditions at your business locations or with respect to your business operations. Further, we do not warrant that the implementation of any view or recommendation will result in compliance with any health, fire, or safety standards or codes, or any local, state, or federal ordinance, regulation, statute or law (including, but not limited to, any nationally recognized life, building or fire safety code). We assume no responsibility for the control or correction of hazards, and the views and recommendations contained herein shall not constitute our undertaking, on your behalf or for the benefit of others, to determine or warrant that your business premises, locations, or operations are safe or healthful, or are in compliance with any law, rule or regulation.
